

Air1 is a local FM radio station. This Christian radio station has proven to be a great source of inspiration for me, providing my friends and family with a "positive alternative" to the other music provided by countless other "pop" stations. I strongly believe that by bringing in an LPFM broadcaster that might displace Air1 would deprive the community with a positive source of Christian ethics and moral music. Furthermore, Air1 is completely financially sponsored by its listeners, showing the huge support behind the station especially considering it is broadcasted nationwide and over the internet--by no means a small financial feat. Please, allow my community to keep this wonderful station up and broadcasting...this is my only source for such uplifting music and it is a large deal of my life. Thank you for your time.
